Train will stop on flag at any point between Grants Pass and Wilderville.

Passenger service every day in the week.

## CARLYLE'S TEMPER.

It Was the Very Reverse of Bad, Said His Old Maid-servant.

Carlyle had tempered? Not at all, if we are to place any belief in the testimony of the maid behind the broom. One of Carlyle's servants, Jessie, who on marrying became Mrs. Broadfoot, has left a very favorable impression of her old master, says the London Standard.

"I could have lived with him all my days," she says, "and it always makes me angry when I read, as I sometimes do, that he was bad tempered. He was the very reverse, in my opinion. I never would have left him when I did if I had not been going to get married. I took great pride in attending on him and studying all his wants and wishes.

"It was one of my duties to rush out and move on all street organs and things of that kind. Many a time in the morning before he rose I used to fill his pipe, the short clay he used in his bedroom, for him and strike the match to light it. I always cut up his tobacco the bought in flat cakes and kept his tin box regularly supplied. He was always so grateful for these little services."

So much for popular belief and the dictum of the democratic servant biographer.

## FIRST AIR BALLOONS.

Dr. Johnson's Description of the Way They Were Inflated.

"The chemical philosophers have discovered a body (which I have forgotten, but will inquire) which dissolved by an acid emits a vapor lighter than the atmospheric air. This vapor is caught, among other means, by tying a bladder compressed upon the bottle in which the dissolution is performed.

"The vapor, rising, swells the bladder and fills it. The bladder is then tied and removed and another applied till as much of this light air is collected as is wanted. Then a large spherical case is made, and very large it must be, of the lightest matter that can be found, secured by some method like that of oiling silk against all passage of air.

"Into this are emptied all the bladders of light air, and if there is light air enough it mounts into the clouds upon the same principle as a bottle filled with water will sink in water, but a bottle filled with ether will float. It rises till it comes to air of equal tenacity with its own if wind or water does not spoil it on the way. Such, madam, is an air balloon."—From Dr. Johnson's Letter, Sept. 22, 1783, to Mrs. Thrale.

A cheerful and glad spirit attains to perfection much more readily than a melancholy spirit.—S. Philip Nerl.

## WICHITA MAKES BASEBALL HISTORY.

Recently at Wichita, Kan., two base runners were retired by one throw to the plate in a game between the Wichita and Lincoln clubs of the Western league, probably the only time such a play ever was made. Lincoln had runners on second and third. A Lincoln batter sent a Texas leaguer to right field. The fielder got the ball on the first bound and sent it slipping toward the plate.

It so happened that the runner on second was much speedier than the runner on third. He was close on the heels of the third base runner when the latter started for the plate. The throw beat the first man by about two feet, and all the catcher had to do was to reach out and tag him. In the meantime the fellow who had been on second came along so fast that he didn't have time to slow up when he saw the runner ahead of him tagged out. So he took a chance and slid for the plate. The catcher tagged him, and he also was out, making two put-outs on one assist. Wichita evidently made history by this play.

## WHY NOT TRY THIS IN BAN JOHNSON'S LEAGUE?

What is the International league coming to? Word is sent out from Montreal that a game has been postponed, as neither team has a pitcher in fit shape to work.

If the same rule were followed by all the clubs in the league the schedule of 140 games might be made to last several seasons.

## USES CIGAR AS SAFETY DEVICE

Oldfield Clamps Teeth on Weed to Prevent Biting Tongue.

Why does Barney Oldfield always have a cigar in his mouth when he drives in a race? This question is often heard in the stands, but Oldfield does not do this for effect; he does it for protection alone. Several years ago when Barney was making a reputation for daring and showing his ability

Photo by American Press Association.

BARNEY OLDFIELD AND HIS FAMOUS CIGAR.

to bust fences he bit his tongue in one of the smashups, which greatly inconvenienced him for some time.

After he got out of the hospital Barney hit upon the stunt of keeping a cigar between his teeth during a race and while he has been in many times

smashups and had several narrow escapes since he adopted the nicotine speech insurance he has always been able to talk for himself immediately after the accident.

## HALL BACK TO MAJORS.

St. Louis Cards Sign Old Sox Pitcher, Who Wins Sixteen Straight.

Winner of sixteen straight games, the same constituting a new American association record for consecutive wins, Ol' Charley Hall is coming back again, this time with the St. Louis Cardinals.

Hall was with the Boston Red Sox for several years and was one of St. Louis's emergency heaving crew during the series between the Giants and the Sox in 1912.

This season with St. Paul he has been the greatest sensation since Rube Marquard. He will report to the Cards next season.

## Race of Seattle a Wonder.

It is hardly likely that the major league scouts will overlook Bill Howe of Seattle, for this big boy has been doing some wonderful pitching. He started out by losing six or eight games in a row. Since then he has been invincible and has registered a dozen straight wins.

## Snodgrass Possessed Nerve.

One who was there says that before signing with the Braves Snodgrass went to Brooklyn and offered his services to the Brookfeds for two years for \$12,000. This, it is said, gave the Wards the biggest laugh they have had this season.

## MASON TELLS WHAT WAR MOVES MEAN

New York, Oct. 5.—If German estimates of 130,000 French and 60,000 British casualties as the result of the renewed western front offensive are correct, the offensive is a failure from the allies' standpoint.

Temporary cessation of the attack is not vital in itself. However, if the allies' brief gains have been thus extremely costly, there can be no expectation that another renewal will be successful.

If the casualties had resulted in carrying the allies within striking distance of a critical section of the German front, this slaughter would have been justifiable.

There is, however, no evidence that the German front is at any point in a critical condition. Berlin's claims that she had met the allies' onslaught without adding reinforcements significantly supports this view.

Recapture of the Hohenzollern redoubt from the British, together with nearby positions from the French, suggest that the allies have suffered extremely, since they did not have there sufficient reserves to hold gains they had made and to consolidate the previously won front.

The growing delay in opening the second artillery preparation is, perhaps, another indication that the allies' losses have been very heavy. Eventually, the world will know what the British losses have been, through official publication of the lists, but what France has suffered will not be known except to its leaders, for France does not announce her losses.

There is no greater delight than to be conscious of sincerity on self examination.—Mencius.

Trespass notices, printed on cloth, at the Courier office.

**"A SHINE IN EVERY DROP"**

Black Silk Stove Polish is different. It does not dry out; can be used to the last drop. Shines and keeps one quality; absolutely no water in it. You get your money's worth.

**Black Silk Stove Polish**

## FAMILY ROW RESULTS IN WIFE SHOOTING HUSBAND

Beaverton, Ore., Oct. 5.—A bitter quarrel is said today to have preceded the shooting and killing of Joe Merlow, an Italian farmer, by his wife Rosa. Mrs. Merlow is under arrest. According to her story, her husband, armed with a club, had just broken into the room in which she had barricaded herself to escape his wrath when she fired the fatal shot. A revolver was the weapon used.

## FARMER BREAKS NECK IN FALL DOWN STAIRS

Lebanon, Ore., Oct. 5.—A fall down stairs has resulted today in the death of Peter Moritz, a well known farmer. His neck was dislocated.

## MISTAKEN FOR DEER AND "WINGED" BY SON

Roseburg, Oct. 5.—Mistaken for a deer and shot in the hand by his son, Charles Dysert, a prominent rancher, is in the hospital here today. Amputation may be necessary.

## BAKER SCHOOL BUILDING DAMAGED BY QUAKE

Baker, Oct. 5.—A large crack in the basement walls of the Brooklyn school building, caused by the earthquake Saturday night, is being repaired today. The damage was not discovered until yesterday.

## SMELTER TO BE BUILT FOR BUNKER HILL MINE

Kellogg, Idaho, Oct. 5.—The Bunker Hill Mining company is to build a smelter costing \$1,000,000, it became known today. Kellogg, Puget Sound and Portland are being considered as possible sites.

## NEGRO MUST HANG FOR MURDER OF MRS. GAY

Sacramento, Oct. 5.—All hope held out by Burr Harris, negro, who murdered Rebecca P. Gay, Christian Science practitioner, in Los Angeles, vanished today when Warden Smith of Folsom prison sent out word that Harris will be executed next Friday morning at 10 o'clock and that all preparations for the execution are being made.

Harris had attempted to escape the noose on the grounds of insanity. He has been in Folsom prison nearly a year.

## CITY STREET SINKS IN SUBWAY CAVE-IN.

Photo by American Press Association.

The section of the new Seventh avenue subway between Twenty-fourth and Twenty-fifth streets, New York city, caved in when a gas-main exploded. A loaded trolley car and wagons sank about forty feet into the debris. Many were killed and hurt.
